

# Download Cadworx Plant Training Manual

## SmartPlant® Foundation

Keeping engineering information current, synchronized, and accessible throughout the life cycle is challenging. SmartPlant® Foundation provides a modular set of user experiences, based on typical work processes to ensure that valid, consistent, and high-quality engineering data is shared across the value chain and between facility information systems.

## Search | Hexagon PPM

Hexagon PPM software solutions transform unorganized data into intelligent, actionable information that enables the smarter design, construction, operation, and management of industrial projects, including: oil & gas, power generation, AEC building infrastructure, metals & mining, shipbuilding, pharmaceutical, chemical, and consumer goods.

## Support articles | Tekla User Assistance

Question: I've inserted a rebar set into a slabplate that represents a concrete structureIn Tekla Structures, a slab is created by picking three or more points.Slab may be part of a floor, for example. but the bars are the whole length, I need to split the bars into stock lengths with standard laps.
